Re: Project Closure, Site 6, 2014 Non-point Source Project
In-kind Services

Dear Mr. Begay:

This is to confirm that NHC has completed our billing for the 2014 project and will not fully bill this project to the authorized maximum of \$42,642. Our total billing to the project is \$41,145.51, which is \$1,496.49 less than authorized. This reduction was possible because some project staff contributed hours on the project that were not charged. In addition, we did not bill for travel time to site visits. On our last site visit during construction, this unbilled time avoided an additional \$701.10 in charges, for a total contribution of at least \$2,197.59. We understand that the Walker River Paiute Tribe accomplishes a great deal with limited resources, and are pleased to have contributed this amount on behalf of the Tribe towards completion of the project.

We look forward to any future opportunities to work with the Walker River Paiute Tribe.

Sincerely,

Northwest Hydraulic Consultants Inc.
